FELLOWES® Powertrim A3

Unique Features

Encloses the blade to prevent user contact whilst trimming. Ensures power supply is stopped when guard is opened

SafeCut™ Clamp locks documents safely in place to ensure a precise cut - machine cannot be operated until the clamp is closed

Trimmer switches to standby mode during periods of inactivity to reduce energy consumption

HOW DOES THE POWERTRIM WORK:

- 1 Document gauge enables user to determine maximum sheet capacity
- 2 SafeCut™ clamp locks sheets into position
- 3 SafeCut™ guard must be closed before operation
- 4 Progressive cutting system cuts through loaded stack in a maximum of 6 passes
- 5 User can stop a trimming cycle when required
